Software Engineer with 2 years of experience focused on developing efficient and clean cross-platform applications.

Experience

Software Engineer Dec 2023 – April 2026
Aatmunn (Mobile Flutter Team) *Bengaluru, India*

- Engineered a BLE module that manages multiple BLE connections simultaneously. Users can customize how data is collected by specifying specific commands, response parsing logic, and polling intervals for each device.
- Designed a modular offline first "Store-and-Forward" mechanism reused across 3+ features; it's an offline-first layer that caches data generated while offline or during transmission failures, automatically syncing upon network recovery to ensure 100% data integrity.
- Architected a scalable Inter-Isolate Communication Protocol, utilized across 3+ modules, this design overcomes Flutter's single-background-service limitation, allowing new independent modules to plug into the shared isolate simply by following the architecture pattern.
- Engineered a audio/video calling SDK used across 2+ tenants, that decouples core communication logic from the presentation layer, enabling multiple tenants to implement custom UI designs over a shared codebase
- Standardized 5+ UI screens by creating reusable JSON-based template structures, enabling backend customization
- Integrated PowerSync's local-first tech, setting up initial configurations and core repositories, streamlining feature-building for developers used across 2+ tenants.
- Refactored error handling across the codebase, transitioning from try-catch blocks to functional handling with the fpdart package.
- **Play Store:** Aatmunn

Software Engineer I June 2023 – Dec 2023
AI Bharat (Mobile Flutter Team) *Bengaluru, India*

- Developed and launched 4+ cross-platform Flutter applications as a sole developer, supporting use cases like Restaurant dining bookings, Admin operations, and AI face swap tools.
- Created 4+ reusable form widgets, halving new form creation time and accelerating form-based feature releases.
- Introduced real-time asynchronous task processing, eliminating user waiting time and allowing users to utilize other app features concurrently.
- **Web apps:** Dream Facer Admin, Cdotx, Cdotx: Admin.
- **Play store:** Cdotx, Cdotx: Admin.

SDE Intern Dec 2022 – June 2023
Kirana Fast (Mobile Flutter Team) *Remote, India*

- Collaborated with 4 interns to implement 5+ new features within an existing billing and inventory management app.
- Coordinated synchronization between Indian and international version app repositories, ensuring both up-to-date.
- Crafted 2+ user-friendly staggered animations for the core billing process, elevating UX and visual engagement.
- Refined a Flutter plugin for Android and iOS to facilitate consistent receipt printing functionality for thermal ESC POS systems, enhancing code readability.
- **Play Store:** Billing Fast, EMS

SDE Intern Feb 2022 – Dec 2022
AI Bharat (Mobile Flutter Team) *Bengaluru, India*

- Created a reusable widget updating on real-time cryptocurrency data, integrated into over 3 distinct functional components.
- Revamped 3+ core screens with a modern trading interface, increasing user engagement.
- **Play Store:** Ampiy.

Projects

YouTube Music Downloader & Player | *Flutter, Dart* 2019 – 2023

- A cross-platform app allowing users to search YouTube, download videos as audio, and organize playlists.
- Code: github.com/RanjanKiran707/yt_music_downloader_player

Portfolio Web App | *Flutter Web, Firebase*

- A responsive, Firebase-hosted Flutter web app showcasing development portfolio and design principles.

Technical Skills

Languages: Python, Dart, C++, JavaScript, SQL
Technologies: Flutter, Firebase, PowerSync, WebSocket, REST APIs, Git, Jira
Libraries & Tools: Dartz, Pandas, Web Scraping
Concepts: Data Structures & Algorithms (DSA), Clean Architecture, Local-first Architecture

Education

B.E Computer Science (CGPA: 8.13) 2019 – 2023
Global Academy of Technology *Bengaluru, India*

SSLC (10th standard) (97.3%) 2016 – 2017
Samved School *Bengaluru, India*

Interests

Active LeetCode solver, Running/Fitness enthusiast.
